

# Non-Resident Nepali Association Australia

NRN Australia has decided to formally recognise, encourage and reward outstanding performers and/or achievers in their participation in different aspects of the life in Australia. The recognition may be considered as a small token of gesture for their contribution to the Australian Nepalese Community. NRN Australia believes that such encouragement and acknowledgement would create role models for coming generation. This would leave a legacy of a cohesive and a proud Australian Nepalese Community.

It is our intention to encourage participation from the wider Nepali community and cross-country Australian Nepali communities giving an opportunity for the recognition of the outstanding achievers and reward their contribution in their achievements for the community. Therefore, we would like to request all Nepali Community Associations and members to nominate and participate in the distinguished achievement award event. NRN's in Australia would be very pleased to have your participation in the award nomination as our key community leaders. We also request you to inform all of the community members, families, and friends of this program and encourage them to participate and nominate the rightful members of our community.

**Purpose:** the main purpose of these awards is to acknowledge and promote talents and resources amongst the people from Nepalese background in Australia. These awards may also assist in the career development of the winners.
